MY MOM DIDN'T HAVE MANY OPTIONS. TODAY'S LUNG CANCER PATIENTS DO.

Twenty years ago, my mother was diagnosed with lung cancer. She had very few places to turn, and lost a difficult struggle.

Today, we are on the brink of real breakthroughs in lung cancer research and there are significantly improved treatment options.

Tony Goldwyn
Stand Up To Cancer
Ambassador

And yet, more than 30% of all lung cancer patients still don't know about the therapies, specialists, and clinical trials available to them.

Lung cancer is a formidable foe, but we are finding new ways to fight it. Please visit SU2C.org/LungCancer to learn what questions to ask your health care professional, and for information about options that may be right for you.

A man with a mustache, wearing a blue and white plaid shirt and jeans, sits in a wooden canoe on a calm lake. He holds a long wooden paddle. In the background, a blue and white tent is pitched on a grassy shore. Several ducks and ducklings are swimming in the water. The scene is set against a backdrop of green trees and mountains under a clear blue sky.
